CREATING SPACE IN EVERYDAY LIFE

We know that clothes, shoes and things fill our homes. We have more things than we actually use and not enough storage for them. With smart storage solutions you will create an overview and everything will have its specific place. Smart storage solutions can give you valuable living space back, that you have lost to temporary solutions.

TRULY MADE TO MEASURE

With a made to measure storage solution you can use even your most challenging spaces for good storage. An adjustable solution lets you re-arrange your storage. You can easily add, remove and reposition drawers, shelves and other pieces as your needs change. Elfa can be used in practically every space in your home thanks to its modular design and good looks. Smart details solves every specific storage need, from your clothing storage to your tools in the garage.

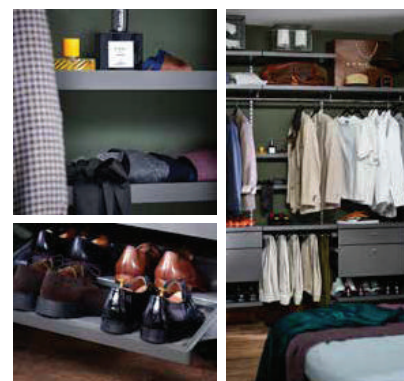

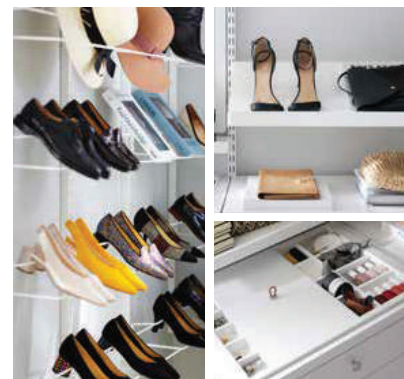

INGENIOUS STORAGE

The Elfa assortment is built on Swedish industrial heritage. Our product development creates clever functions with our own design based on storage knowledge since 1948. With exceptionally strong epoxy-bonded steel, Elfa can easily handle everything from a library of books to garden equipment and clothes.

COMPLETE STORAGE SOLUTIONS

Be proud of your things and create open storage solutions. Let us show you what you can do with your space, visit us in store or online at www.elfa.com.

ASSEMBLY & INSTALLATION	22, 23

INSPIRATION 24 - 31

GET SET IN 3 SIMPLE STEPS

1. CHOOSE TOP TRACK AND HANG STANDARD OR FREESTANDING

We recommend the Top hang solution to all conventional walls. But if you can't or don't want to screw in your wall, there is a freestanding option.

TOP TRACK & HANG STANDARD
Page 6

The only thing you screw into the wall is the Top track.

FREESTANDING Page 7

A freestanding solution suitable for creating an island of storage or for challenging spaces.

2. ADD SHELVES AND DRAWERS

Add shelves and drawers that suit your need.

SHELVES Page 9 & 10

DRAWERS Page 11

3. COMPLETE FOR SPECIFIC NEEDS

Add functional accessories to complete your solution for different usage

TOP HANG SOLUTIONS

A Click-in system top hang solution is based on sections. A section is the area created between two hang standards.

NOTE! Each section is designed to hold 200 kg load.

Make sure not to overload each product and to place your load evenly. Find each product maximum load in the list.

TYPE OF PRODUCT	MAX LOAD
Hooks (Garage & Storage)	22,5 kg
Hooks for storing boards	2,3 kg *3 kg
Hooks for storing boards (Garage & Storage)	*2,3 kg 2,5 kg
Accessory hook	3 kg
Basic hook	3 kg

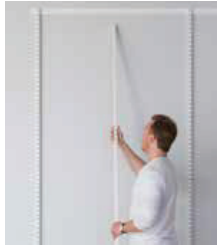

These recommendations are based on your wall being without defects. It is your responsibility to secure the condition of the wall and that it can withstand the load that will be applied.

The recommendations require you to use our assembly instructions.

The recommendations also require you to use the screws and plugs recommended for your wall type, see the recommendations in our assembly instructions.

TOP TRACK AND HANG STANDARD

Everything hangs on the Top track.

Screw the Top track into the wall.

Hang the hang standards on the Top track.

Hook brackets in place.

Click in your storage functions.

HANG STANDARD

Hang the standards on the Top track and position from 45cm to 90cm apart. These hold shelves, drawers, and other storage features. Can be cut to size.

HANG STANDARD COVER

Mount on the hang standard and wallband to hide slots.

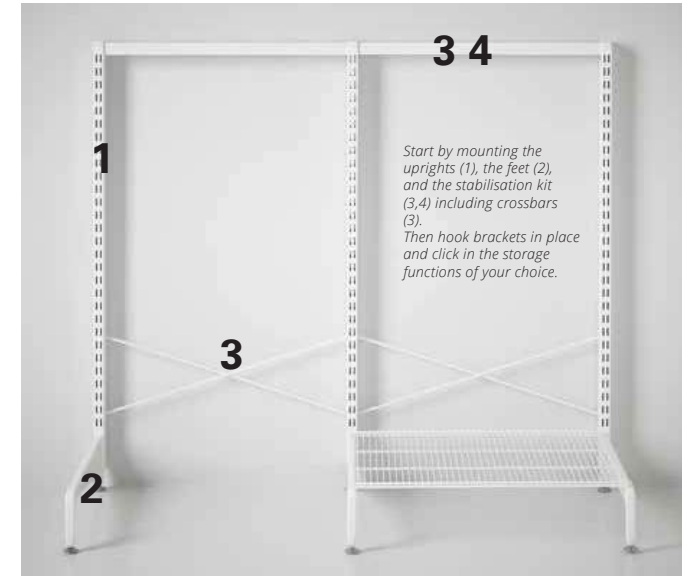

LENGTH	CODE	COLOUR
4224mm	427410	white
roll	427480	platinum

FREESTANDING

Freestanding is one of the mounting options within the Click-in system.

A floor based solution where you click in your storage functions. Choose between double or single-sided.

Start by mounting the uprights (1), the feet (2), and the stabilisation kit (3,4) including crossbars (3). Then hook brackets in place and click in the storage functions of your choice.

This option is ideal when you can't - or don't want to - mount your system directly on the wall e.g. when the wall can't carry the weight, there is a window or when you want to leave the wall as it is. It's also perfect as a room divider, since the upright standards are double-sided. Complement with the features you need for storage to fit e.g. clothing, garage or laundry room.

UPRIGHT

Standard to be used for freestanding click-in system, does not require a wall. Completed with feet and stabilization kit for freestanding storage.

HEIGHT X WIDTH	CODE	COLOUR
1036 x 25mm	401010	white
Depth 50mm	401080	platinum
1580 x 25mm	401510	white
Depth 50mm	401580	platinum
2124 x 25mm	402110	white
Depth 50mm	402180	platinum

5

If you want a Wire shelf at the bottom, use the enclosed clip (5).

STABILIZATION KIT

Kit to create stability in the freestanding system. Mounted between two freestanding uprights and also the feet for freestanding upright.

WIDTH X HEIGHT	CODE	COLOUR
449 x 30mm	608210	white
Depth 46mm	608280	platinum
605 x 30mm	603910	white
Depth 46mm	603980	platinum
902 x 30mm	606110	white
Depth 46mm	606180	platinum

FOOT FOR FREESTANDING UPRIGHT

Adjustable height to maintain stability despite uneven surface. Clips included to attach a Wire shelf directly to the feet.

WIDTH X HEIGHT	CODE	COLOUR
470 x 135mm	603710	white
Depth 34mm	603780	platinum
560 x 135mm	603810	white
Depth 34mm	603880	platinum

WALLBANDS, BRACKETS & ACCESSORIES

Brackets are essential building blocks in the Click-in system, to be used for attaching storage functions to the hang standards e.g. shelves and drawers.

CLICK-IN BRACKETS

Use with Wire and Decor Shelves and gliding components

LENGTH	CODE	COLOUR
320 mm For 300mm Shelf	410310 410380	white platinum

BASIC DRAWER SET
CODE: 744590 - Mesh 74 - 45

UTILITY DOOR & WALL RACK KIT
CODE: 334610

DRAWER SYSTEM

A floor based system built on frames, crossbars, and drawers. Can be placed in e.g. closets and laundry rooms - freestanding, and on wheels. Combine with drawer units and add accessories to build a storage system fitting your needs and space e.g. under a staircase.

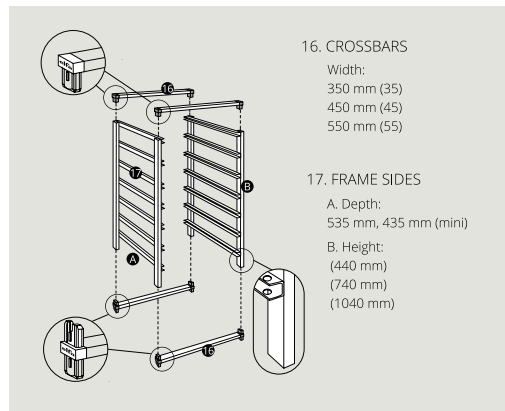

Drawers can be used in existing wardrobes or cupboards, when slid into runners, mounted onto the wardrobe side walls.

1. CASTERS
2. MESH DRAWER
3. TOP SHELF
4. WIRE DRAWER
5. FRAME SIDE CLIPS

16. CROSSBARS
Width:
350 mm (35)
450 mm (45)
550 mm (55)
17. FRAME SIDES
A. Depth:
535 mm, 435 mm (mini)
B. Height:
(440 mm)
(740 mm)
(1040 mm)

GET SET IN 3 SIMPLE STEPS

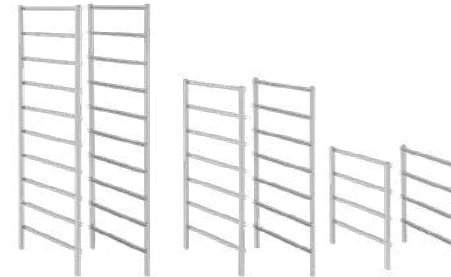

- 1.) Choose crossbars according to your desired width of drawers.

Choose frames according to your desired height and depth of your drawer unit. The amount of frame side runners decides how many drawers you can fit and the height of the drawers.

- 3.) Choose between wire and mesh drawers and accessories according to your needs.

FRAMES

Frame sides to build freestanding Drawer system. Complement with Crossbars and Drawers for complete storage solution. Supplement with Top shelf to create solid work surface and Extension kit to stack multiple units.

The colour guide indicates which crossbars, frame sides and drawers fit together.

CREATE YOUR OWN DREAMY (AND FUNCTIONAL) CLOSET

Achieving your dream closet is easier than ever. The Décor range has a wide selection of stylish fixtures, fittings and accessories which allows for both a stylish and functional closet. There are also some valuable tips to have in mind when planning, to maximise the use of space, create overview and an airy closet solution.

HANG AS MUCH AS POSSIBLE

Hang as much as possible, preferably at two heights. The benefits are extra space, easy access and clothes that are free of creases. Hang all the way in the corners, to use the space efficiently.

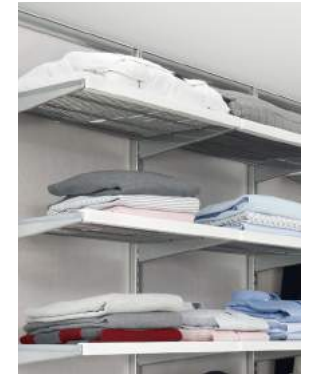

KEEP THE FLOOR FREE

This will create an airy feel to the room and make the room easier to clean.

HANG OR FOLD YOUR PANTS

Jeans can be stored folded, or rolled up, while more formal trousers are best hung on extendable pant racks. This separates them for easy selection, keep them wrinkle free and takes up less space than hangers.

CREATE EASY ACCESS

Robes, jeans and clothes that you use frequently can be hung on hooks inside or on the sides of your storage solution.

STORE BY CATEGORY

A good way to store your clothes is by dividing the solution into sections for job, leisure and party. Another way is sorting by colour. To keep a clean look, use identical hangers in the entire closet.

SPACING MATTERS

Recommended spacing between each shelf is 35 cm, when you store folded clothes. This way you won't get an overloaded closet.

REGULAR RINSE

Tip for keeping your wardrobe current and up-to-date; store away clothes you rarely use and see if you miss them after six months.

ASSEMBLY & INSTALLATION GUIDE

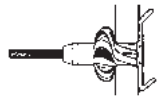

PLEASE READ ALL OF THE INSTRUCTIONS BEFORE BEGINNING ASSEMBLY.

Tools needed: pencil, scissors, level, power drill, drill bits, #2 Phillips head bit for power drill, #2 Phillips head screwdriver, hammer, tape measure, ladder or step stool.

ASSEMBLY HARDWARE FOR TOP TRACK

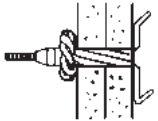

#2 Bit

Expander for single plasterboard (G5)

Used for 1/2"/3 mm or 5/8"/17 mm thick drywall. Use 3/8"/10 mm drill bit to drill hole. Insert dark blue anchor, remove and discard the gray spacer. Use #2 Phillips head bit to tighten the screw.

Expander for double plasterboard (G6)

Used for 1"/18-30 mm thick plaster or drywall. Use 3/8"/10 mm masonry drill bit to drill hole. Insert red anchor, remove and discard the gray spacer. Use #2 Phillips head bit to tighten the screw.

Screw and plug | Other Installation Hardware for Special Wall Construction

Wood

Used for mounting into drywall over wood studs or directly into wood. Use 1/8"/3 mm drill bit to drill a pilot hole the length of the bit. Discard anchor. Use #2 Phillips head bit to tighten the screw.

Concrete walls

Used for mounting into masonry walls, concrete, brick, etc. Use 5/16"/8 mm masonry drill bit to drill hole. Insert light blue anchor. Use #2 Phillips head bit to tighten the screw.

EASY HANG VENTILATED SHELVING COMPONENTS

Top Track

This is the only thing you need to screw into the wall

Hang standard

Hangs in the track.

Bracket for Ventilated Shelf

Mounted in the hang standard.

Ventilated Shelf

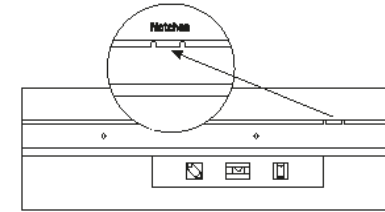

Snaps into the brackets

Closet Rod Holder

Mounted in the brackets to keep the Closet Rod in place.

Closet Rod

Available in different lengths and mounted using rod holders.

Top tracks have a top and a bottom. The TOP is designated by a label and has two notches to allow hang standards to be inserted properly.

Position the top track

Place top track at desired height, mark one hole in the middle, and take the top track down. It is usually placed at ceiling or door height, but may be placed at any height.

Begin drilling the marked hole with a 1/8"/3mm drill bit. If you hit wood, continue drilling the entire length of the bit. If you hit the hollow part of the wall, enlarge the hole with a 3/8"/10mm drill bit for the hollow wall anchors.

Put the top track up with one screw and tighten it enough to hold the top track against the wall.

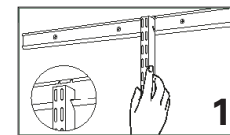

To keep the top track level while you mark all of the holes, place a level on the top of the top track and adjust it as required.

Drill all marked holes and put up the top track

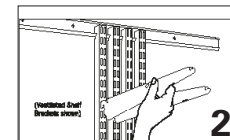

Take the top track off of the wall. Drill holes with a 1/8"/3 mm drill bit, assuming you are going into wood. If you hit wood, continue drilling the entire length of the bit. Put the top track up and insert and tighten all the screws.

If you hit the hollow part of the wall, mark those holes with an X, reminding yourself you need to go back and drill a 3/8"/10 mm hole for the hollow wall anchors.

EASY HANG INSTALLATION - VENTILATED SHELVING

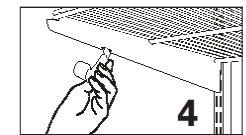

Insert the hang standards in the top track notches.

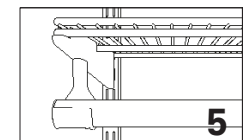

Hanging Standards should be placed at a maximum of 36"/900 mm apart in closets, 24"/600 mm apart for storage of heavy items

Place Shelf wires over notches in the Ventilated Shelf Bracket. The end of the Shelf should extend 1/2"/10 mm past the side of the Bracket. Lock the Shelf into place by pressing the middle part down and toward the wall. To unlock the Shelf, lift the back out of the slot and pull away from the wall. Snap the Closet Rods into their Holders

Insert the closet rod holder into the slot in the bottom of the bracket click in.

Snap in the closet rod. Tap the end caps into both ends of the closet rod. Snap the closet rod into the closet rod holder.

GARAGE

WARRANTY

High quality, long warranty. Elfa's products are created with a focus on details. The steady and durable construction guarantees first class storage solutions that can last for generations.

The extent of the warranty

The warranty includes material and production errors for interior products at normal home use,

Warranty period

The warranty is valid for 10 years from the day of purchase. Please urge the consumers to keep their receipt.

Limitations

Damages or errors caused by misconduct, improper use or an occurrence not reasonably expected or controllable (such as flooding, earthquakes, force majeure etc) are not included in the warranty. Also not included are surface treatment issues depending on high humidity, scratches or wear and tear when using it, or direct exposure to weather forces.

Repair or replacement are the alternatives based on this warranty. Elfa is not responsible for any sort of direct damage caused to the product after delivery or indirect damage including unpredictable damages or secondary damages.

Unpredictable damages include, but are not limited to, damages caused by an incapacity to use/install, incautious handling, inadequate stockholding of purchased goods. Secondary damages include, but are not limited to, costs for repairing or replacing property damages caused by an Elfa product not functioning properly. Elfa can also not, based on this warranty, be held liable for downtime or loss of income. Repair or replacement of parts

Should the product not be repairable, we will replace it.

Defect products must be returned with purchase receipt.

CREATING SPACE IN EVERYDAY LIFE

Our guess is that clothes, shoes and things fill your home – they are everywhere and not always where you want them to be. With ingenious storage solutions things will find their place and you will find your things. We can inspire you to recover cubic metres you may have lost to temporary solutions.

Storage that creates space will bring back and improve your living space, allowing you to put it to better use for hobbies, activities or precious time with loved ones.
